# PARQUET INTELLIGENCE

OUR KNOWLEDGE.  
YOUR BENEFITS.

## A MATTER OF TRUST

Our family has been connected to the natural element, wood, for more than 180 years. After all, our home town Weiz is located in the middle of green Styria, the province in Austria with the largest abundance of forests. Just as our forests keep on growing, we also undergo continual development and growth. Dr. Nicola Weitzer and Mag. Alexandra Decker-Weitzer, who head the family enterprise, are the seventh generation to run the company. The responsibility for future generations is the driving force for decisions in favour of sustainability in economic, eco-logical, and social matters.

THIS IS PARQUET INTELLIGENCE:

**PERFECT SOLUTIONS**  
FOR ALL AREAS  
OF USE!

**Are you looking for a parquet floor that offers you practical benefits?**

**Our intelligent solutions:** Our maintenance-free, healthy, and sound reduction parquet's worldwide unique features as well as system-solution renovation with Weitzer Parkett are representative here of the numerous proofs of our innovative strength, which sets standards in matters of parquet, offering convenience, comfort and an enhanced sense of well being.

**"Made in Austria" is a special attribute of our products:**

- We perform each and every individual production step in Austria - from cutting the timber, to packaging of the parquet.
- Social responsibility is an integral part of our corporate policy, which is why we feel very strongly about ensuring that our personnel have jobs in Austria in the future as well.

## PARQUET STRUCTURE

### 2-LAYER PARQUET

A spruce base layer, combined with a real hardwood top layer gives a low floor height construction, which is ideal for renovations

### 3-LAYER PARQUET

A spruce counterbalance base, combined with a spruce core and a real hardwood top layer gives the highest level of stability - even with floating installation

## CONNECTION SYSTEM

### TONGUE AND GROOVE

4-side tongue and groove connection

### DOUBLE-CLICK

Intelligent, patented double-click system with the greatest interlocking power on the market

## WEAR LAYER THICKNESS

### APPROX. 2,5 TO 5,0 mm

This refers to the thickness of the hardwood top layer

## INSTALLATION TECHNIQUES

### COMPLETE ADHESION

Products that are suitable for complete adhesion to subfloor

### FLOATING INSTALLATION

Products that are suitable for floating installation on recommended underlays

### FLOATING ADHESION

Suitable for the floating adhesion on the underlay WP Looseglue

## HYDROSTOP

### UNIQUE, ALL-ROUND JOINT-EDGE IMPREGNATION

The Hydrostop impregnation applied at the factory provides the ultimate protection against the ingress of moisture due to small spillages

## HERRINGBONE INSTALLATION

### LEFT AND RIGHT HAND BLOCKS

Allows for a wide variety of possible installation patterns

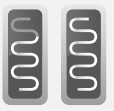

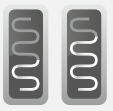

## WOODEN STAIRS WP MULTI

### DON'T FORGET:

there's a stair covering to match every parquet! No matter what wood species, format, colour and additional treatment you use

## SUITABLE FOR UNDERFLOOR HEATING\*

### LIMITED TO VERY GOOD

depending on the relevant layout (level of heating loop), suitable for underfloor heating

LIMITED SUITABLE IDEALLY

## HARDNESS GRADE OF WOOD SPECIES\*

### SOFT TO VERY HARD

The hardness of the wood is especially important in terms of pressure points - wear resistance is additionally increased by means of the surface finish

SOFT MEDIUM STRONG VERY STRONG

# MOTHER NATURE GIVES US HER COLOURS

OUR SOURCE OF  
INSPIRATION.

## LAVA

Colour Range LAVA:  
Strong and powerful colour tones. The dark and dusky nuances will produce mysterious and magical shadows and shade, creating an atmosphere of timeless beauty.

## TERRA

Colour Range TERRA:  
Earthy colour tones - the source of life. Captured in brown hues, these colours will ground your surroundings giving your room warmth and comfort.

## FIRE

Colour Range FIRE:  
Passionate colours from one end of the red spectrum to the other. These dynamic, bright colours give a feeling of wellbeing and vitality

## NATUR

Colour Range Nature:  
Refined colour tones. Subtle beautiful shades, neither light nor dark. Understated and restrained, giving a classical finish to your room.

## STONE

Our parquet colour range STONE :  
A colour range that is full of surprises with its multitude of shades. Varying from cool, light tones, through to the exciting darker versions which will give your rooms a modern and stylish appearance.

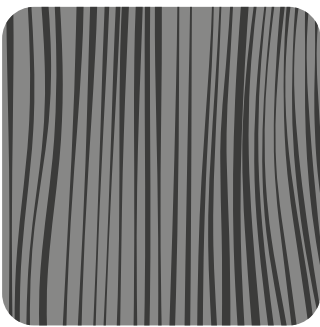

## SAND

Colour Range SAND:  
A glimpse of the seaside. Colour tones that remind you of long sandy beaches the outdoors, and the sound of the sea. These bright hues will bring a feeling of relaxation into your life.

# GRADINGS AND HAPTICS

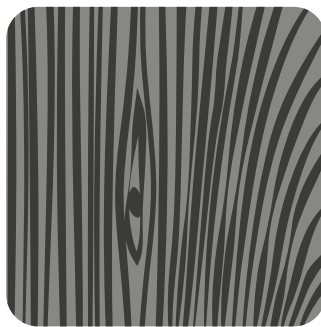

AS VARIED AS LIFE.

## EXQUISITE

The elegant and calm appearance given by grain and colour (with no light-coloured sapwood) satisfies the most exquisite taste.

**Characteristics:** pin knots, fine grain, no sapwood, rift grain

## CALM (NATURE AND SELECT)

This grading mixes a timeless grain combination, from simple to decorative.

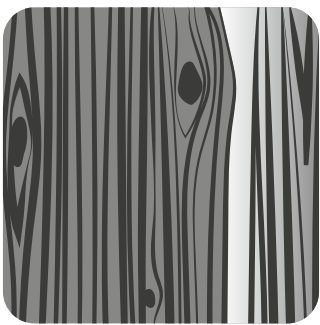

**Characteristics:** small knots, natural colour variation, no sapwood

## LIVELY (ACCENT, ORIGINAL\*)

This grading has a high percentage of sound knots with an even colour variation without sapwood.

**Characteristics:** knots, natural grain variation no sapwood

## LIVELY COLOURFUL

(NATURAL, ORIGINAL, SPECTRUM, STRUCTURE)

The lively colourful grading offers the whole variety of nature. The large proportion of sapwood produces a harmonious, colourful appearance.

**Characteristics:** knots, sapwood and natural grain

## RUSTIC

(ESSENCE, VIBRANT, ORIGINAL\*)

This grade demonstrates the natural growth characteristics of the oak tree.

**Characteristics:** no limitation on size of knots, open knots, head cracks and variations in colour are permitted, no sapwood

## RUSTIC COLOURFUL

(VIBRANT, RUSTIC, ORIGINAL)

The proportion of sapwood produces a colourful appearance with the full expressive power of the tree. Shows character and leaves the tree alive as a piece of living nature.

**Characteristics:** knots of unlimited size, smoothed-out knots and head cracks, sapwood with natural grain variation, distinct variation in colour and timber structure

### BEVELLED

accentuates the plank appearance  
adding depth and presence

### BRUSHED

emphasizes the natural structure  
of the wood grain

### DEEP BRUSHED

Emphasizes the wood structure  
intensely

### INTENSELY BRUSHED

hand-crafted features

### SCRAPED

soft, varied planing imparts a special look  
and feel

# WEITZER PARKETT APPEARANCES

FOR EVERY STYLE,  
WE OFFER THE RIGHT  
FORMAT.

## PLANK APPEARANCE

- Expressive wood effect which is close-to-nature and works well in large spaces
- Elegant, lively and timeless
- The characteristics of the wood are completely retained, ensuring every floor is unique
- Also available as Grand Plank, which performs a strong appearance with its length and three widths

## WIDEBOARD- APPEARANCE

- Generous format between plank and block appearance
- Expression of contemporary design
- Especially well-suited to large, commercial or residential areas
- Also fits stylishly into smaller rooms
- The classic herringbone and French herringbone laying patterns are also possible

## BLOCK APPEARANCE

- Timeless, classic format
- Harmonizes with any furniture style
- Offers the greatest freedom of choice of installation patterns, such as herringbone, plait, shifted dice and lamella
- Also perfect for combining with other products

## STRIP APPEARANCE

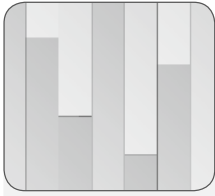

- Unique design from Weitzer Parkett
- Multi-faceted strip appearance in contemporary design
- Gives the room a lively look and a personal touch
- Extraordinarily effective, especially when installed on stairs (waterfall appearance)

SHOWS  
DURABILITY.

COMPLICATED AND  
TIME CONSUMING  
MAINTENANCE IS NO  
LONGER REQUIRED.

OUR SPECIAL PORE  
SEALING PROCESS.

THIS IS PARQUET INTELLIGENCE:

THE WORLD'S FIRST **MAINTENANCE-FREE PARQUET!**

**Are you looking for a parquet floor that offers you practical benefits?**

**Our Intelligent Solution:** The unique, special sealing that goes down to the pores, makes our parquet maintenance free. All it takes is a gentle clean saving time and money. Your floor remains beautiful without any maintenance.

## WHAT WE UNDERSTAND BY MAINTENANCE-FREE PARQUET

Weitzer Parkett are the first and only manufacturer of this type of parquet flooring. For residential use, the complicated and time consuming maintenance is no longer required. For ProStrong and ProActive+ surfaces, only a light cleaning is required.

YOU CAN ALWAYS IDENTIFY OUR MAINTENANCE-FREE PRODUCTS BY THE MAINTENANCE-FREE SYMBOL

### GUARANTEED BY:

- **7-LAYER UV CURING EXECUTE:**

The unique sealing technology of the ProStrong surface, protects the parquet against scratches, abrasion and heavy duty / wear and tear. Multi-layer sealing is also available in a natural matt effect as the ProActive+ surface.

- **ONE OF THE LARGEST HARDWOOD-KILN-DRYING FACILITIES IN EUROPE:**

Decades of experience in the drying of wood help guarantee greater inherent stability and fitting-accuracy. This helps reduce the appearance of gaps, because the timber has been kiln dried to the level it is expected to achieve in service. ie. EMC - Equilibrium Moisture Content.

- **SHOWS DURABILITY.**

Our maintenance-free parquet is extremely resistant to scratches and chemicals.

## RADIANTLY BEAUTIFUL - DAY IN AND DAY OUT

- **SPECIAL WEITZER PARKETT CLEANING PRODUCTS:**

Cleaning products that have been specifically developed for Maintenance-free parquet, guarantees long lasting, clean, hygienic and beautiful parquet floors. A small amount of water and the "Clever Cleaner" or, alternatively Cleaning Soap is all that is required. No additional care and maintenance is necessary. Weitzer Parkett cleaning products are ecologically tested and are completely harmless to humans and environmentally friendly

Refer to the Parkett Primer for detailed instructions

- **ALL-ROUND PROTECTION WITH JOINT-EDGE IMPREGNATION**

- WP Charisma has the finish applied ex-factory
- Reduces water penetration at the header and longitudinal edges
- Increases the resistance of your parquet to liquids on a permanent basis

# HEALTHY PARQUET

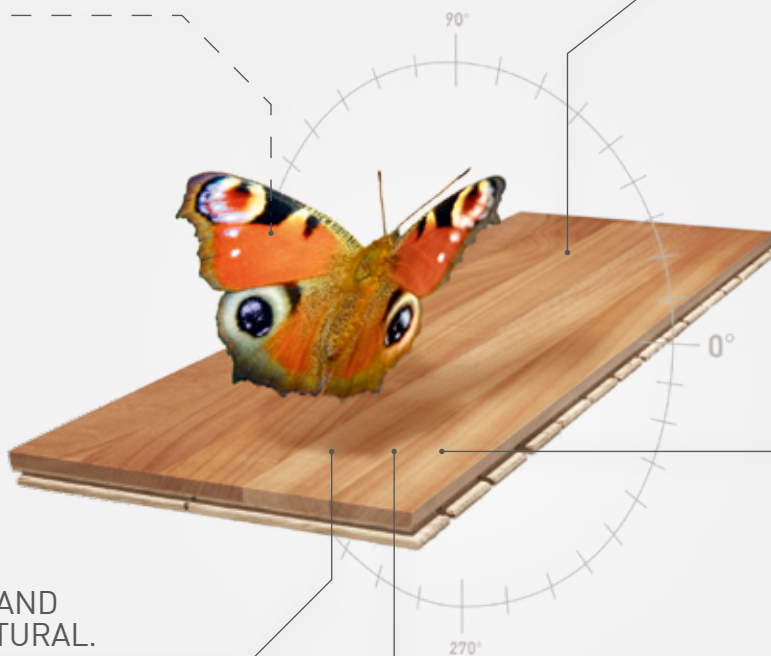

FOR A PERFECT  
INDOOR CLIMATE.

I LOVE ITS  
NATURE.

CREATE HEALTHY  
SURROUNDINGS WITH  
THE AAAA-EFFECT.

100% PURE AND  
TOTALLY NATURAL.

PROMOTES  
WELL-BEING.

PERCEIVED HIGHER  
FLOOR TEMPERATURE  
BY UP TO 2.2 °C.

THIS IS PARQUET INTELLIGENCE:

## THE FIRST **HEALTHY PARQUET** WITH AAAA-EFFECT!

**Are you looking for a parquet floor that offers you healthy surroundings?**

**Our Intelligent Solution:** our healthy parquet with its allergy-free, antibacterial, antistatic and alive qualities, creates a hygienic, healthy atmosphere of well-being. Contrary to carpets, dust and dirt cannot get a permanent foothold on the smooth surfaces and mites have no habitat. With its special surfaces, you feel the wood structure very close: intensely brushed or scraped.

## WHAT WE UNDERSTAND BY HEALTHY PARQUET

This type of floor covering has a significant influence on individuals. Weitzer Parkett have created Healthy Parquet specifically to provide and promote a healthy climate and wellbeing.

HEALTHY

YOU CAN  
ALWAYS  
IDENTIFY  
OUR HEALTHY  
PRODUCTS BY  
THE HEALTHY  
SYMBOL

### THE UNIQUE ADVANTAGES:

#### - 100% PURE - NATURAL OILS AND WAXES FROM RENEWABLE RESOURCES

The surface of the healthy parquet is treated only with natural oils and waxes that penetrate deep into the pores and provide the parquet with strong protection. This extremely breathable surface creates a sense of well being and healthy living that helps restrict / reduce / remove allergens from the environment of the potential allergy sufferer. When it comes to appearance, our healthy parquet boasts a natural timber structure that really stands out thanks to the oiled surface.

#### - THE NATURAL MATERIAL WOOD

Wood brings comfort and warmth into the room. The latest studies of an independent German test institute prove: Increase in surface temperature for parquet compared to

- laminate by up to 0.8°C
- tiles by up to 2.2°C

This helps save heating costs!

#### - ROOM CLIMATE REGULATION

Wood in a room promotes regulation of the humidity and the optimum conditions are 50% humidity and 20°C room temperature. The more wood within a room, the better the climate can be controlled, health problems triggered by too dry or humid air are minimized.

#### - THE AAAA -EFFECT

Allergy-sufferer friendly | **Antibacterial** | **Antistatic** | **Alive**

The perfect surfaces, By it's allergy-free antibacterial, antistatic and alive qualities, Weitzer Parkett creates a hygienic, healthy atmosphere of well-being. Contrary to carpets, dust and dirt cannot get a permanent foothold on the smooth surfaces and mites have no habitat.

### PARQUET CARE!

#### - PARQUET FOR A LIFE TIME

When it comes to wooden floors, a distinction is made between cleaning and care. Ongoing cleaning ensures a clean surface day in and day out. Parquet care protects the wood and gives protection. Regular care ensures that the surface retains its original finish.

Refer to the instruction to parquet brochure for more information.

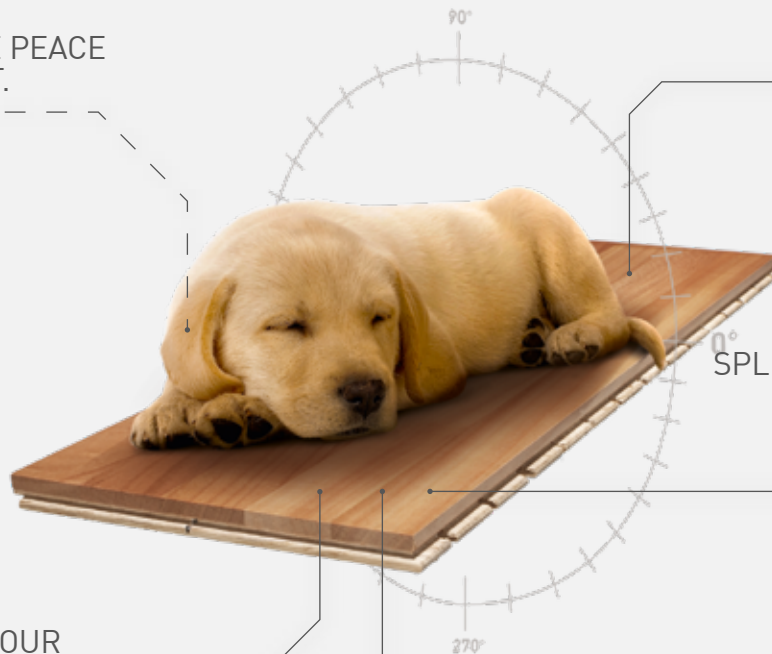

# SOUND-REDUCTION PARQUET

COMPACTNESS IN IT'S  
QUIETEST, MOST  
BEAUTIFUL FORM.

DRASTIC  
NOISE-  
REDUCTION!

I LOVE THE PEACE  
AND QUIET.

FORMS PERFECT  
BOND TO THE  
SUBSTRATE.

SPLENDID ROOM ACOUS-  
TICS VIA  
PLEASANT  
FREQUENCY RANGE.

ENHANCES YOUR  
WELL-BEING.

ADDITIONAL NOISE REDUCTION IN  
CONJUNCTION WITH WP LOOSEGLUE

THIS IS PARQUET INTELLIGENCE:

**SOUND-REDUCTION PARQUET -**  
ENSURES PERFECT ROOM ACOUSTICS

Do you long for peace and quiet?

**Our Intelligent Solution:** The firm bond between parquet and substrate engenders compactness. According to independent German testing, our bonded whisper parquet is up to three times quieter than laminate. Added to this is the beneficial frequency range of the raw material, wood — not for nothing are concert halls and instruments often made of it.

## WHAT WE UNDERSTAND BY SOUND-REDUCTION PARQUET

Room acoustics play a vital role in personal well-being. Weitzer Parkett specializes in this field and the Sound-reduction parquet helps to create an atmosphere of relaxation.

### – THE NATURAL MATERIAL WOOD

In contrast to other floor coverings, parquet guarantees a comfortable frequency range. There are good reasons why concert halls and musical instruments are manufactured from wood.

### – PERMANENT BOND

Complete surface bonding by professionals, provides perfect contact with the underlay, thereby minimising distribution of ambient sound.

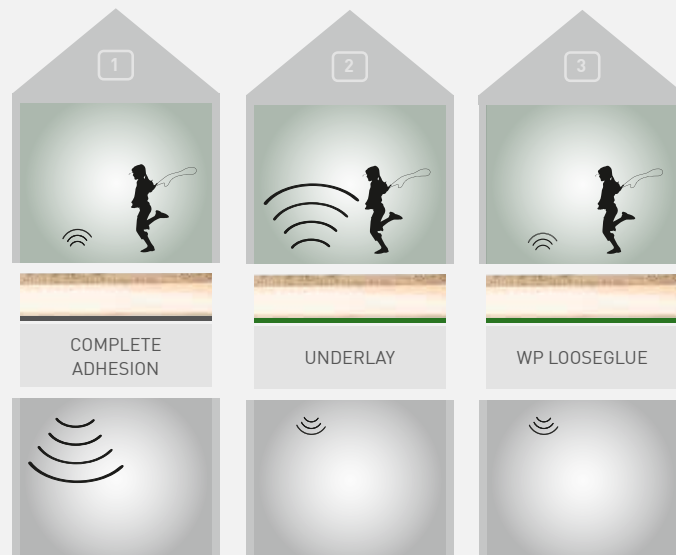

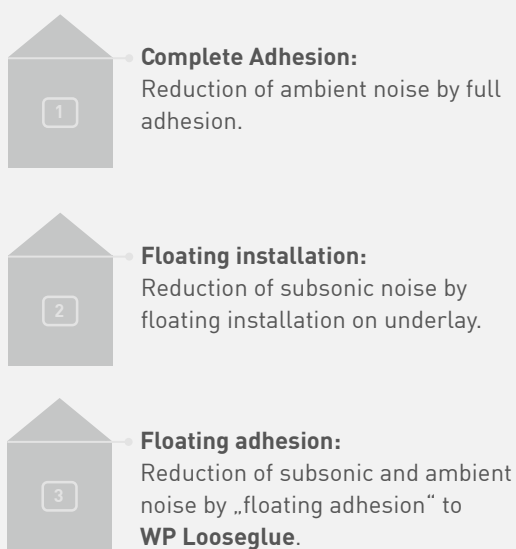

### – THE PROVITAL-SURFACE

Our Sound-reduction parquet achieves an outstanding reduction of ambience noise due the printive surface texture of the timbers used.

### – WP LOOSEGLUE AND SOUND-REDUCTION PARQUET: A DREAMTEAM!

Thanks to the outstanding noise-reduction abilities of the WP Looseglue underlay one can achieve a reduction of subsonic noise by 18dB and a significant reduction of ambient noise at the same time. The result is the splendidly deep, compact sound of your footsteps. You combine the advantages of the two installation techniques — floating installation and the adhesion of the parquet — killing two birds with one stone; it's a completely dust-free renovation and an improvement in room acoustics. The result is the splendidly deep, compact sound of your footsteps.

## OUR SOUND-REDUCTION SOLUTIONS:

# RENOVATING WITH WEITZER PARKETT

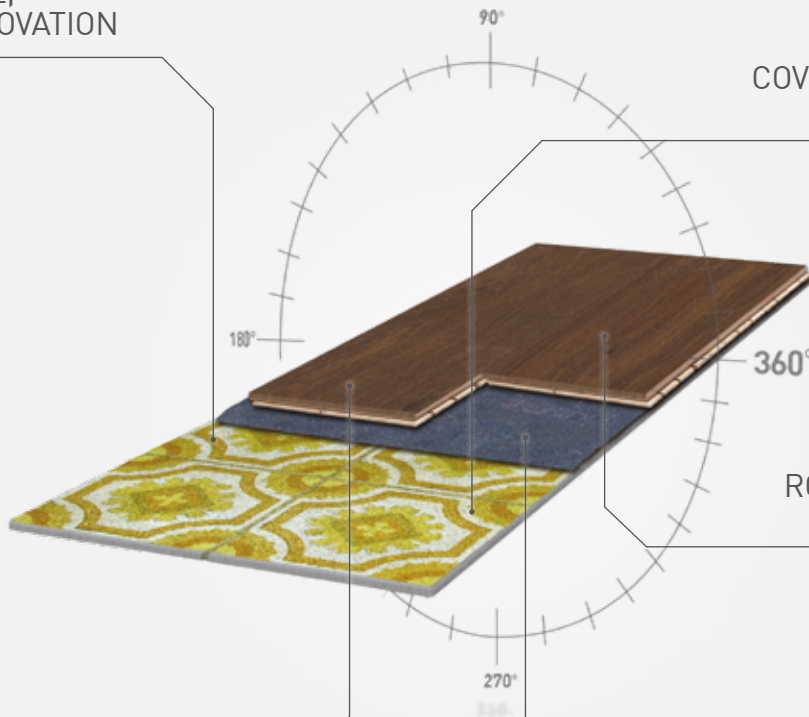

SO FAST.  
SO DUST-FREE.  
SO QUIET.

FAST,  
DUST-FREE,  
QUIET RENOVATION

OLD FLOOR  
COVERING REMAINS  
IN THE ROOM

SIMPLE REMOVAL  
POSSIBLE

ROOM IS IMMEDIATELY  
WALKABLE

SIGNIFICANT NOISE  
REDUCTION

THIS IS PARKETT INTELLIGENCE:

RENOVATION HAS NEVER BEEN **SO FAST,**  
**SO DUST-FREE AND QUIET.**

**Would you like your floor to be renovated quickly, without dust, and as quietly as possible?**

**Our intelligent solution:** With the system solution from Weitzer Parkett, you renovate your floor within a few hours. The old floor covering can remain in the room. The new parquet floor is immediately walkable. No dust and no noise in order to tear out the old floor. The system simultaneously combines all of the advantages of professional adhesion and floating installation! You achieve the greatest noise reduction and hear only the splendidly deep, compact sound of your footsteps.

## WHAT WE MEAN BY RENOVATION

One generally ponders the renovation of a floor covering for a long time. One fears the effort and costs. However with Weitzer Parkett, that more often means renovation WITHOUT dust, WITHOUT noise, and WITHOUT boring tasks.

**Weitzer Parkett has developed an overall solution that enables dust-free renovation. One achieves perfect room acoustics as well.**

ADHESION  
FLOATING

YOU  
RECOGNIZE  
PRODUCTS  
THAT CAN BE  
INSTALLED  
WITH WP  
LOOSEGLUE  
BY THIS IN-  
STALLATION  
SYMBOL.

### THE UNIQUE BENEFITS:

#### – FAST, DUST-FREE, QUIET RENOVATION

With the renovation solution from Weitzer Parkett, you work quickly, without dust, and quietly! The simplest installation technique guarantees a customer- AND craftsmanship-friendly solution.

#### – THE OLD FLOOR COVERING STAYS IN THE ROOM

Your new parquet is installed over the old floor covering. The unique WP Looseglue matting finds space between them. The difference to traditional underlay mats for floating installation consists in adhesion to the parquet so that even most 2- and 3- layer products can be installed. A level difference can be avoided in most cases in combination with parquet having a less thickness. The parquet is immediately walkable again after installation.

#### – FAST, SIMPLE INSTALLATION

The most important adjustments to the renovation work, for example to door linings and skewed masonry, are now quite simple. Adjust until the element sits perfectly then pull off the WP Looseglue's cover film and done! Entirely without adhesive! Tongue-and-groove products are especially well suited for this.

#### – THE ROOM IS IMMEDIATELY WALKABLE

Movable furniture can also stay in the room — you push it to one side of the room and install on the other. Then repeat the same procedure with the other half of the room. The room can be traversed again immediately thanks to the system solution with intelligent installation technique.

#### – PERFECT ROOM ACOUSTICS

Thanks to the outstanding noise-reduction abilities of the WP Looseglue underlay one can achieve a reduction of subsonic noise by 18dB and a significant reduction of ambient noise at the same time. The result is the splendidly deep, compact sound of your footsteps. You combine the advantages of the two installation techniques — floating installation and the adhesion of the parquet — killing two birds with one stone; it's a completely dust-free renovation and an improvement in room acoustics.

#### – SIMPLE REMOVAL POSSIBLE

WP Looseglue is also ideal for preserving the subfloor regardless of whether it's a floor worthy of historical preservation or a simple lettable area that is destined to be returned to its original condition after use. Easy removal also offers an uncomplicated renovation solution if the wish for a new parquet floor exists years later.

PLANK APPEARANCE | 3-LAYER PARQUET

PLANK APPEARANCE | OAK ALPINE SUN | RUSTIC (ESSENCE) | BEVELLED, BRUSHED

# PLANK APPEARANCE

## NATURE'S FINEST.

TRUE LUXURY:  
ONLY AROUND 17% OF THE TRUNK  
OF A TREE CAN BE USED TO  
ACHIEVE THE PLANK APPEARANCE!  
THAT MAKES EVERY PIECE A UNIQUE  
AND VALUABLE ITEM.

## IMPERIAL PLANK

## 3-LAYER PARQUET

- In two exclusive formats that demonstrate true splendour
- The plank appearance is emphasized thanks to bevelling of the longitudinal and header joints **(01)**
- Tongue and groove joint on four sides **(02)**
- Spruce supporting material with vertically arranged growth rings **(03)**
- Suitable for underfloor heating
- The Imperial plank has to be fully adhered

**Installing a fidbox® (climate measuring device) is strongly recommended.** This enables specialist advice to be sought including indoor climate optimization even after the parquet has been installed. This preserves the value and beauty of the floor and ensures a long life of the same.

The natural product wood has a long procurement lead time. As a result of high demand regarding particular species or grades the delivery time can be longer.  
All consignments underlie the sales-, payment terms and delivery conditions of Weitzer Parkett. Subject to change without prior notice.

## WP GRAND PLANK

### 3-LAYER PARQUET

- The plank appearance is emphasized thanks to bevelling of the longitudinal and header joints **(01)**
- Tongue and groove joints on four sides. Can be completely adhered to the subfloor. Also suitable for floating installation in optimal room climates **(02)**
- Spruce supporting material with vertically arranged growth rings **(03)**
- Ideally suited to underfloor heating, as it can be completely adhered to the subfloor

**Installing a fidbox® (climate measuring device) is strongly recommended.** This enables specialist advice to be sought including indoor climate optimization even after the parquet has been installed. This preserves the value and beauty of the floor and ensures a long life of the same.

# WIDEBOARD APPEARANCE

## OFFERS SPACIOUSNESS

PROVIDES A ROOM WITH STYLE AND DISTINCTIVENESS, WORKS WELL IN ALL SURROUNDINGS. THE SPECIAL FORMAT BETWEEN PLANK AND BLOCK. ITS GENEROUS APPEARANCE MAKES IT PERFECTLY SUITED TO LARGE OR SMALL AREAS.

## WP 4140

## 2-LAYER PARQUET

- Luxurious format with an extremely wide choice of wood species, finishes and surfaces
- Tongue and groove joint on four sides **(01)**
- Tailor-made and dimensionally stable header joint by utilizing top-quality plywood **(02)**
- Spruce supporting material with vertically arranged growth rings **(03)**
- Bevel on the longitudinal and header joints **(04)**
- Ideally suited to underfloor heating, thanks to ideal overall thickness

**Herringbone\* and French Herringbone\* installation:**

- All articles in all surfaces are suitable for Herringbone installation
  - Joint-edge impregnation is recommended
- For French Herringbone installation:
  - Inquiry possible for 60° and 45° laying
  - All items except **bevelled** in PS and PA+ suitable!
  - Joint-edge impregnation is recommended

\* from an order of 20 m<sup>2</sup>

## DIMENSIONS:

1400 x 140 x 11 mm

Overall thickness 11 mm with approx. 3,6 mm wear layer

0 cm 100 cm 200 cm 300 cm 350 cm

## PACKING UNITS

UNIT	PACKAGE	PALLET
CONTENTS	10 boards = 1,96 m <sup>2</sup>	56 packages = 109,76 m <sup>2</sup>
DIMENSIONS	1,415 x 0,155 x 0,12 m	1,415 x 1,080 x 0,96 m
WEIGHT	approx. 12,29 kg	approx. 700 kg
EDGE PROFILE FOR STEPS	Fixed length: 1,40 m; profile 40, 40 style, 58 style and block style; Profile block style: riser is delivered loose.	

## PACKING UNITS FRENCH HERRINGBONE

French Herringbone 45° = 1,76 m<sup>2</sup> per unitFrench Herringbone 60° = 1,85 m<sup>2</sup> per unit

## WP 4100

### 2-LAYER PARQUET

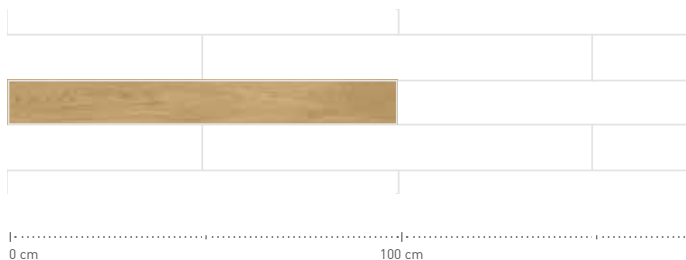

- Available in an extremely wide choice of wood species, finishes and surfaces
- Tongue and groove joint on four sides **(01)**
- Tailor-made and dimensionally stable header joint by utilizing top-quality plywood **(02)**
- Spruce supporting material with vertically arranged growth rings **(03)**
- Can be used in combination with WP 450

#### Herringbone\* and French Herringbone\* installation:

- All articles in all surfaces are suitable for Herringbone installation
  - Joint-edge impregnation is recommended
- For French Herringbone installation:
  - Inquiry possible for 60° and 45° laying
  - All items except **bevelled** in PS and PA+ suitable!
  - Joint-edge impregnation is recommended

\* from an order of 20 m<sup>2</sup>

#### DIMENSIONS:

1000 x 125 x 11 mm  
Overall thickness 11 mm with approx. 3,6 mm wear layer

#### PACKING UNITS

UNIT	PACKAGE	PALLET
CONTENTS	12 boards = 1,50 m <sup>2</sup>	64 packages = 96,00 m <sup>2</sup>
DIMENSIONS	1,01 x 0,14 x 0,14 m	1,20 x 1,03 x 1,26 m
WEIGHT	approx. 9,20 kg	approx. 588,80 kg
EDGE PROFILE FOR STEPS	Fixed length: 1 m or 2 m; Profile 40, 40 style, 58 style and block style; Profile Block style: riser is delivered loose.	

#### PACKING UNITS FRENCH HERRINGBONE

**French Herringbone 45°** = 1,31 m<sup>2</sup> per unit  
**French Herringbone 60°** = 1,38 m<sup>2</sup> per unit

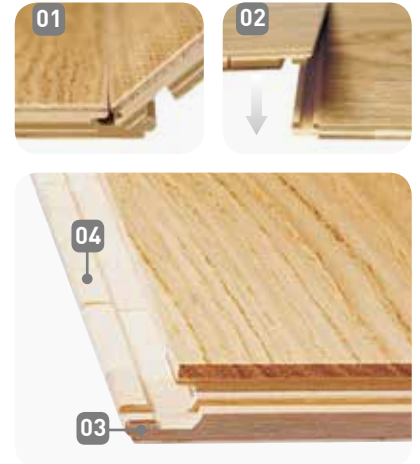

## WP CHARISMA 2-STRIP

## 3-LAYER PARQUET

- Intelligent patented double-click system with the greatest interlocking power on the market. **(01)**
- Patented press-stud principle for simultaneous locking of the longitudinal and header joints in one movement **(02)**:
  - Fast and simple one-man assembly and disassembly
  - Can be completely adhered to the subfloor\*
- Header joint edge locking mechanism made from solid hardwood only - completely free from plastic components and plasticizers **(03)**
- Spruce supporting material with vertically arranged growth rings **(04)**
- HydroStop:
  - Unique all-round joint-edge impregnation
  - Provides the ultimate protection against the ingress of moisture due to small spillages
- **NOW NEW:** The WP rotatable plank allows a simple modification of the laying direction

\* Ideally suited to underfloor heating, as it can be completely adhered to the subfloor

## DIMENSIONS:

2245 x 193 x 14 mm

Overall thickness 14 mm with approx. 3,6 mm wear layer

0 cm 100 cm 200 cm 300 cm 350 cm

## PACKAGING UNIT

UNIT	PACKAGE	PALLET
CONTENTS	6 boards = 2,60 m <sup>2</sup>	35 packages = 91,00 m <sup>2</sup>

## FRENCH HERRINGBONE 45°

UNIT	PACKAGE	PALETT
CONTENTS	20 boards = 1,55 m <sup>2</sup>	32 packages = 49,60 m <sup>2</sup>
DIMENSIONS	0,79 x 0,27 x 0,13 m	1,20 x 0,80 x 1,23 m
WEIGHT	approx. 15 kg	approx. 480 kg

## FRENCH HERRINGBONE 60°

UNIT	PAKET	PALETT
CONTENTS	20 boards = 1,68 m <sup>2</sup>	32 packages = 53,76 m <sup>2</sup>
DIMENSIONS	0,79 x 0,27 x 0,13 m	1,20 x 0,80 x 1,23 m
WEIGHT	approx. 16 kg	approx. 520 kg

## WP 450

### 2-LAYER PARQUET

- Available in an extremely wide choice of wood species, finishes and surfaces
- Tongue and groove joint on four sides **(01)**
- Tailor-made and dimensionally stable header joint by utilizing top-quality plywood **(02)**
- Spruce supporting material with vertically arranged growth rings **(03)**
- Offers the greatest freedom of choice of installation patterns, also perfect for combining with WP 4100

#### Herringbone and French Herringbone\* installation:

- All articles in all surfaces are suitable for Herringbone installation
  - Joint-edge impregnation is recommended
- For French Herringbone installation:
  - Inquiry possible for 60° and 45° laying

\* from an order of 20 m<sup>2</sup>

#### DIMENSIONS:

500 x 65 x 11 mm  
Overall thickness 11 mm with approx. 3,6 mm wear layer

#### PACKING UNITS

UNIT	PACKAGE	PALLET
CONTENTS	72 boards = 2,34 m <sup>2</sup> <small>(each package contains 50% right and 50% left blocks)</small>	30 packages = 70,20 m <sup>2</sup>
DIMENSIONS	0,51 x 0,28 x 0,205 m	1,20 x 0,80 x 1,18 m
WEIGHT	approx. 14,29 kg	approx. 428,70 kg
EDGE PROFILE FOR STEPS	Fixed length: 1 m, 1,5 m or 2 m; Profile 40, 40 style, 58 style and Block style; Profile Block style: riser is delivered loose	

#### PACKING UNITS FRENCH HERRINGBONE

**French Herringbone 45°** = 2,04 m<sup>2</sup> per unit  
**French Herringbone 60°** = 2,15 m<sup>2</sup> per unit

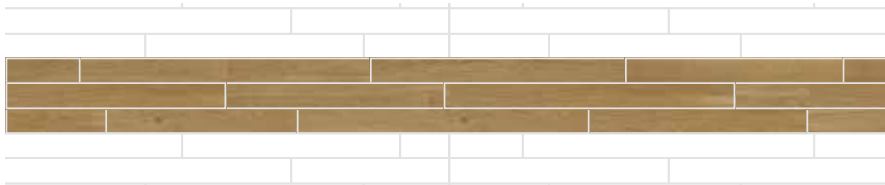

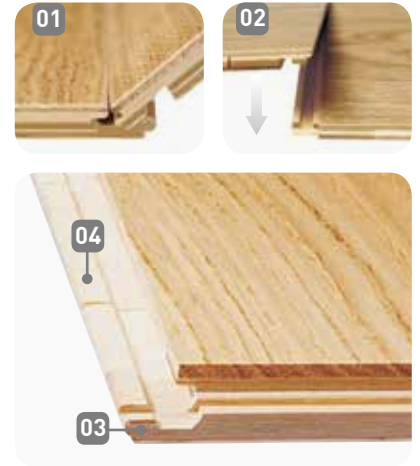

## WP CHARISMA 3-STRIP

## 3-LAYER PARQUET

- Intelligent patented double-click system with the greatest interlocking power on the market. **(01)**
- Patented press-stud principle for simultaneous locking of the longitudinal and header joints in one movement **(02)**:
  - Fast and simple one-man assembly and disassembly
  - Can be completely adhered to the subfloor\*
- Header joint edge locking mechanism made from solid hardwood only - completely free from plastic components and plasticizers **(03)**
- Spruce supporting material with vertically arranged growth rings **(04)**
- HydroStop:
  - Unique all-round joint-edge impregnation
  - Provides the ultimate protection against the ingress of moisture due to small spillages
- **NOW NEW:** The WP rotatable plank allows a simple modification of the laying direction

\* Ideally suited to underfloor heating, as it can be completely adhered to the subfloor

## DIMENSIONS:

2245 x 193 x 14 mm

Overall thickness 14 mm with approx. 3,6 mm wear layer

## PACKING UNITS

UNIT	PACKAGE	PALLET
CONTENTS	6 boards = 2,60 m <sup>2</sup>	35 packages = 91,00 m <sup>2</sup>
DIMENSIONS	2,28 x 0,215 x 0,085 m	2,28 x 1,10 x 0,71 m
WEIGHT	approx. 19,80 kg	approx. 693 kg
EDGE PROFILE FOR STEPS	Fixed length: 2,245 m; Profile 40, 40 style, 58 style and Block style; Profile Block style: riser is delivered loose

## 03 MULTI FRONT EDGE - RISER (FER)

Covers the side of the risers (vertically) and rounds off the overall picture of the staircase. It is available in white (see image) or in all parquet appearances.

## 04 MULTI WALL COVER MOULDING (WCM)

The final touch for wall clearance. Offers protection against abrasion and dirt.

## 05 MULTI FRONT EDGE (FE)

The Multi Front Edge covers the open sides of the tread. The Multi Front Edge is provided with a permanent tongue. A router and a 4 mm groove cutter with thrust ring are needed for installation.

### PROFILE 40:

Dimensions: 350 x 40/58 x 6 mm | Dimensions: 600 x 40/58 x 6 mm

Also available **without** tongue!

Precise,  
stable  
fixation of  
Front Edge  
(FE) \*

\* Grooves must be cut during installation

## 03 + 04 + 05 WP MULTI MOULDING SYSTEM

The intelligent moulding system made of genuine wood for all applications—whether straight, L- or U-shaped, or slanting. Consisting of **Multi Front Edge (FE)**, **Multi Front Edge - Riser (FER)**, and the **Wall Cover Moulding (WCM)**, they fit every Weitzer Parkett and every multi-stair variation. **Available in every wood species and colour of the Weitzer Parkett assortment.**

WEITZER PARKETT OFFERS MATCHING STAIRS FOR EVERY PARQUET FLOOR - IRRESPECTIVE OF WHICH TIMBER OR COLOUR TONE YOU USE - CREATING COLOUR CONSISTENCY THROUGHOUT

**01** EDGE PROFILE FOR STEPS (EP)

The stair-edge profile consists of a multi-moulding and a parquet strip (profile 40). The profile for the 40 style, 58 style and block style variants is crafted from a single piece of parquet. The stair-edge profile is the termination of each stair (exit) and allows the adjacent parquet to continue to be laid seamlessly. (continued frontal laying on request)

Immediately click on For example continue installation

**PROFILE 40**  
40 mm edge band

**PROFILE 40 STYLE**  
40 mm

**PROFILE 58 STYLE**  
58 mm

**PROFILE BLOCK STYLE**  
Variable riser\*

\* Height depends on each product. SYMBOLIC PHOTOS

**02** TREAD PANEL

Consists of several parquet strips (number of parquet strips varies depending on parquet appearance) and terminates at the longitudinal sides each with multi-moulding.

**AVAILABLE MODELS:**

Profile 40, 40 style, 58 style and Block style profile

**You'll find a detailed description of the individual profiles on the next page.**

Standard 17 mm thick carrier panel, 6 mm or 27 mm thickness deliverable on request

Two treads can be produced per large die plate.

TREAD COMBINATION

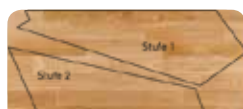

Exemplary presentation of the tread combination for each cut is displayed on the back side. However this serves only as guidance. Exact measures must always be taken on site!

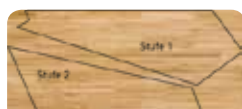

PLANK APPEARANCE\*

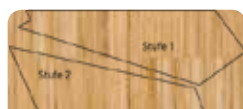

WIDEBOARD APPEARANCE

BLOCK APPEARANCE

STRIP APPEARANCE  
„CLASSIC“ installation

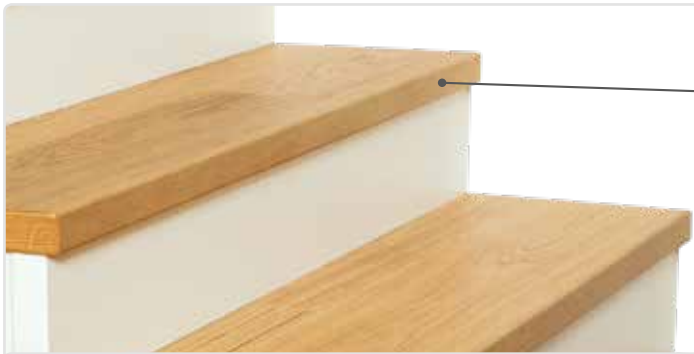

STRIP APPEARANCE  
„DESIGN“ installation

\* Continuous top layer (no header joint) is possible at an extra cost.

## THE TREAD PANEL IN DETAIL

Consists of several parquet strips\* and connects each longitudinal side with a multi-moulding. **Two treads** can be produced per tread panel. Edge radius: 5 mm

TREAD PANEL **PROFILE 40**

Consists of several parquet strips and terminates with a mitred parquet surface on each of the longitudinal sides. Two step treads can be produced per large-format tread. Edge radius: 3 mm

TREAD PANEL **PROFILE 40 STYLE**

Consists of several parquet strips and terminates with a mitred parquet surface on each of the longitudinal sides. Two step treads can be produced per large-format tread. Edge radius: 3 mm

TREAD PANEL **PROFILE 58 STYLE**

Perfect joining technology!  
Joining the riser and tread without shadow gap.  
Edge radius: 3 mm

TREAD PANEL **PROFILE BLOCK STYLE**

\* **Number of parquet strips** varies depending on parquet appearance.

\*\* **Height** depends on each product.

# PROFESSIONAL INSTALLATION WITH SCREW CONNECTED RISER

FOR A PERFECT RESULT

OPTIMIZED INSTALLATION CONDITIONS  
OF THE RISER USING AN EXACT  
EDGE AND PRE-DRILLED  
THREADED-CONNECTION HOLES.

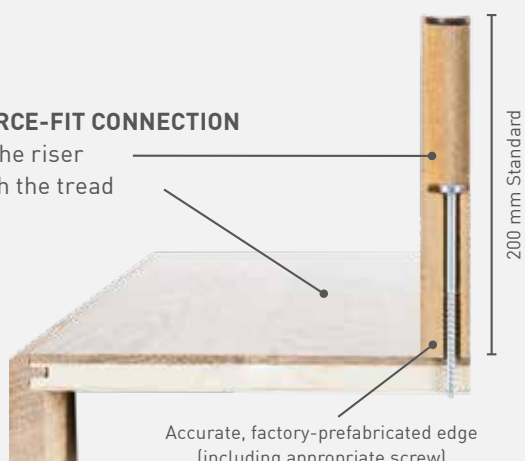

## YOUR BENEFITS AT A GLANCE:

- Prefabricated riser as an ideal solution to cover existing structure **(01)** (Brickworks/Painting not necessary)
- Pre-drilled, countersunk threaded connection in the riser **(02)** (simple one-man installation)
- Remarkable saving of installation time

### FORCE-FIT CONNECTION

of the riser  
with the tread

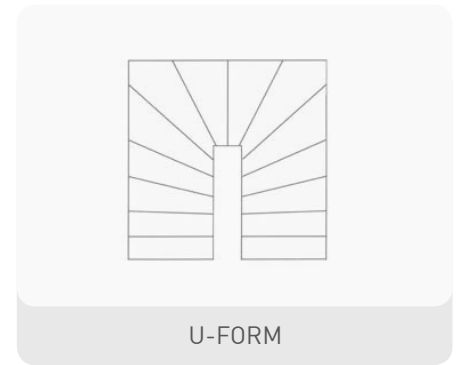

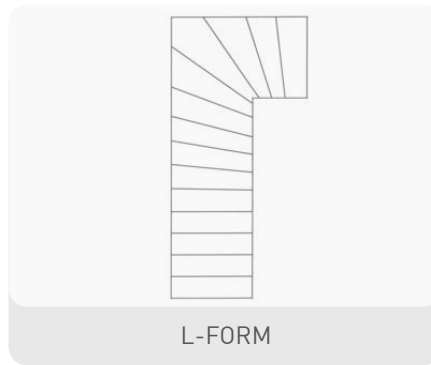

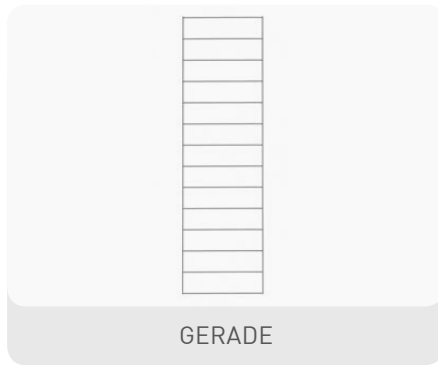

Accurate, factory-prefabricated edge  
(including appropriate screw)

## WP MULTI POSSIBILITIES

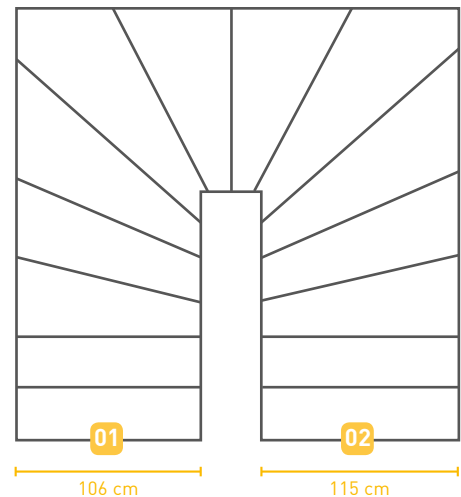

## WP MULTI PRICING/EXAMPLE

**Material:** TREAD PANEL (Block appearance | WP Charisma 3-Strip | Oak | natur | ProActive+)  
profile 40 (with carrier panel )  
U-SHAPED  
14 steps  
Tread width: ? [CALCULATION EXAMPLE FOR TREAD WIDTH BELOW]

**Step 1: Average tread width determination**

- Measure the staircase's entrance (1) and exit (2)
- Calculate the average of the two tread widths:  
 $106 \text{ cm} + 115 \text{ cm} = 221 \text{ cm} : 2 = \mathbf{111 \text{ cm} = 1,11 \text{ m tread width}}$   
(Round to two decimal places)

**Step 2: Price determination**

Tread Panel profile 40 (L-and U-SHAPED)

Wood species Oak 73,85  
+ carrier panel surcharge 15,04

= Price per linear meter 88,89  
x average tread width 1,11

= Price per step 98,66  
x 14 steps 14

= **Total price** **1.381,33**

# PARQUET ACCESSORIES

## FOR A LONG PARQUET LIFE!

WITH THE RIGHT ACCESSORIES,  
THE PARQUET STAYS BEAUTIFUL  
YEARS AFTER ITS INSTALLATION

# GUARANTEED FREE FROM PLASTICIZERS

WEITZER PARKETT  
SETS STANDARDS:  
WITH A UNIQUE OVERALL  
SOLUTION FREE FROM  
PLASTICIZERS!

ENVIRONMENTALLY  
FRIENDLY

We are the first and only provider on the market to offer you an overall solution free from plasticizers: from the parquet floor to the adhesive. Another contribution to improved health and the preservation of Mother Nature.

Weitzer Parkett is well aware of its environmental responsibility and implements this throughout the entire value-added chain - from the procurement of raw materials right up to our wood waste recycling. In the same manner, we place great emphasis on using environmentally safe products required in the production of our parquet flooring.

## PROFI SMP ADHESIVE NO. 950

### PRODUCT DETAILS

- 1-component, label-free adhesive
- Use with 2- and 3-layer parquet:  
1000 g/m<sup>2</sup> to 1200 g/m<sup>2</sup>
- Application: suitable for complete adhesion of solid wood floors, 2-layer and 3-layer parquet\*

## YOUR BENEFITS AT A GLANCE:

- free from Plasticizers
- does not contain potentially migrating components after curing
- free from solvents and water
- Sustainability: Parquet that has been removed after a long period of use can in future be fed into the recycling execute at significantly lower cost. Thanks to the environmentally friendly adhesive, no harmful substances can be absorbed by the wood, which means that it can be fully recycled for future use.

Easy-to-execute, exemplary solution –in terms of the environment and economics

## SAFETY INCLUDED.

The fidbox® is a climate monitor that is hidden in the parquet for measuring the temperature (°C) and relative humidity (%), and a data logger for ongoing data recording all in one. The data stored in the device can be read at any time and allows for determination of the temperature as well as the level of humidity of the screed/subfloor and wood. Not only is this information of interest when it comes to room climate, it also provides clear evidence in the event of damage.

## YOUR BENEFITS AT A GLANCE:

- The fidbox® has already been used on numerous occasions to indemnify parquet installers in cases of claims against them. The device measures the temperature and relative humidity and consequently provides recognised data that can be verified by experts.
- The **fidbox®** is integrated in the parquet floor. The stored data can be easily read out at a later stage by using a specific **APP**.
- The **fidbox® APP** enables end customers, builders, or the building supervision company to constantly monitor indoor climatic conditions remotely (via Bluetooth). This also applies in particular to residences that have stood empty for a long time.

Installing a fidbox® is mandatory for the WP Grand plank. This enables you to seek specialist advice and optimize your indoor climate even after the parquet has been laid, thereby ensuring the value of the parquet floor is preserved. This will ensure your clients can look forward to a long and happy life together with their parquet floor.

## ADHESIVES

		PACKAGING UNIT	ITEM NUMBER	EURO /UNIT
	<p><b>Profli SMP Glue No. 950 - EC 1 - R+</b></p> <p>is an one component glue, free of softeners, solventfree and water-free – no labeling required. Residues of glue are easy to remove. - GENERAL

## WOOD - AT ITS BEST

OUR WOOD SPECIES MIRROR MOTHER NATURE'S DIVERSITY.

**OAK - THE STEADFAST ONE** BOTANICAL NAME QUERCUS

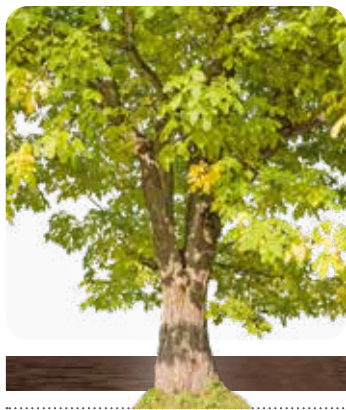

The highly characteristic, long-living oak is amongst the most valuable of domestic timbers. The timeless classic stands for robustness - the wood of this dependable tree is durable, hard, firm and elastic all in one. This makes it the perfect wood for a wide range of additional colour treatments, because it works with all furniture styles and is perfect for use with underfloor heating, oak remains the wood of choice for most people selecting a parquet floor.

**Origin:** primarily Austria, Hungary and Croatia.

**BEECH - THE FLEXIBLE ONE** BOTANICAL NAME FAGUS SYLVATICA

The beech is Austria's most common deciduous tree, and is often affectionately referred to as the "mother of the forest" as a result. The hard, durable wood, with its fine, discreet growth pattern, is easy to steam bend, after which it retains its new shape. The diverse range of styles to which beech lends itself, from rustic to elegant, make it the wood most used in parquet after oak. Beech wood is distinctive for its light yellow to pinky-brown colouring.

**Origin:** Austria and Hungary .

**WALNUT - THE PRECIOUS ONE** BOTANICAL NAME JUGLANS NIGRA

One of the most valuable and sought-after timbers, walnut has been viewed for centuries now as one of the most precious wood species for the production not just of parquet flooring and furniture, but also of musical instruments. Thanks to its colouring, which ranges from matt to blackish-brown, and its marking, this attractive wood gives any room it graces a particularly luxurious ambience. Its varied appearance makes it the ideal choice for those wishing to create effective contrasts.

**Origin:** Central and Eastern Europe, USA

**ACACIA- THE ROBUST ONE** BOTANICAL NAME ROBINIA PSEUDOACACIA

The wood of the perennial acacia has a wide range of different uses: it is one of the heaviest and hardest domestic wood species, and has a high level of resistance. One special characteristic of acacia wood is its resistance to weathering, while it is also highly stable and flexible. Visually, the acacia's distinct structuring and warm, reddish-brown colouring, which is brought out by means of a steam execute, is highly pleasing.

**Origin:** Hungary

# WOOD - AT ITS BEST

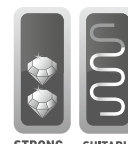

OUR WOOD SPECIES MIRROR MOTHER NATURE'S DIVERSITY.

## ASH - THE VITAL ONE BOTANICAL NAME FRAXINUS EXCELSIOR

Thanks to the high quality of its wood, the ash is one of the most precious deciduous woods, and together with beech and oak, one of the most important timbers in Central Europe. The expressive, distinctively structured wood, with its pronounced annual rings, is harder, tougher and more flexible than that of many other trees. For that reason, ash wood is most popular amongst those with the highest requirements when it comes to toughness and flexibility. Thanks to its special marking with a brown core, the ash is often known as the 'core ash'.

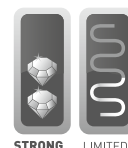

**Origin: Austria, Hungary and Croatia.**

## CANADIAN MAPLE - THE CHARMING ONE BOTANICAL NAME ACER SACCHARUM

Canadian maple is both harder and more distinctive in its graining than the mountain maple. The sugar maple, as this wood is also known due to the famous maple sugar which can be produced from the sap of the tree, is one of the most valuable of the maple species. With its eyed texture and the warm appearance of its wood, the Canadian Maple is popular amongst those wishing to combine it with other woods, and has a wide range of uses compared to other light wood species due to its hardness.

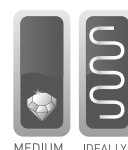

**Origin: Canada and North-Eastern USA**

## CHERRY - THE WARMING ONE BOTANICAL NAME PRUNUS AVIUM

Cherry continues to be a classic in the furniture world, and was the most popular wood of the Biedermeier and art nouveau era. Again and again, this refined precious wood motivated designers of the time to create elegant, beautifully shaped - and of course, comfortable - furniture. Its reddish-gold brown colour gives any room a warm, comfortable radiance. The lively, natural graining makes it particularly decorative, and the perfect wood to use in contrast with white or darker woods.

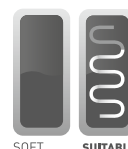

**Origin: primarily Austria and Croatia.**

## STONE PINE - THE AROMATIC ONE BOTANICAL NAME PINUS CEMBRA

The stone pine is one of the few domestic wood species which, as well as its striking graining (numerous dark-brown knots), has an unmistakable scented aroma which hangs strongly in the air. The essential oils contained in pinewood have been proven to have a positive effect on our health and wellbeing. According to a survey by Joanneum Research Austria, pinewood reduces the heart rate and promotes regeneration in the body. Stone Pine also has a positive influence on our sensitivity to weather conditions. In addition to this, pinewood has a high antibacterial effect, and even serves as an effective protection against insects thanks to the special substances contained in it. As a result, the stone pine is primarily used in bedrooms and wellness areas.

**Origin: selected mountain regions in Austria.**

## NO SOONER SAID THAN DONE.

We listen to Mother Nature, and feel obliged to align our company with the environment. We invite you to follow our example!

- Our raw timber is almost exclusively derived from European, sustainable forests.
- We are the first parquet manufacturer to have ceased using tropical hardwood timber for a number of years.
- Support for Greenpeace forest projects. By purchasing a Weitzer Parkett product, you are contributing to saving the last remaining virgin forests in Romania.
- Energy is a valuable resource, our internal biomass power plant, photovoltaic systems and hydroelectric power plant allow us to produce not only environmentally friendly district heating, but also eco-power. The energy produced in this sustainable manner provides power not only for Weitzer Parkett but also for more than half of the city of Weiz. This corresponds to a capacity of more than 2000 households.
- We make a significant contribution to a positive eco balance by means of our overall value-add chain: resources from nearby locations, short transport paths, production in Austria, renewable energy, and much more besides.
- **We are a step ahead: Weitzer Parkett is the first and only manufacturer in the market to offer an overall solution for parquet flooring and adhesive that is free from plasticizers.**

THIS IS PARQUET INTELLIGENCE:

## HAND IN HAND WITH MOTHER NATURE

**Do you expect Environmental Responsibility that you can trust?**

**Our Intelligent Solution:** Tropical timber has been a taboo for us for a long time and we actively support Greenpeace's forest protection projects. Our innovative strength helps us to implement particularly efficient measures in matters of ecology: our in-house biomass co-generation plant, photovoltaic system, and hydroelectric plant are just a few examples of our responsible actions in terms of future generations.

# WE LISTEN TO MOTHER NATURE

OUR ECOLOGICAL  
RESPONSIBILITY  
FOR FUTURE  
GENERATIONS.

70 m<sup>2</sup> WP Charisma  
Oak planks bind  
1 ton of CO<sub>2</sub>

„Healthy flourishing forests play a key role in the global climate, and consequently for life as a whole. Accepting responsibility for the environment is a major concern for us. That’s why as personal sponsors, we support the **GREENPEACE** forest campaign in Romania for the preservation of the last remaining virgin forests in Europe“

Dr. Nicola Weitzer  
Mag. Alexandra Decker-Weitzer

## ENVIRONMENTAL RESPONSIBILITY

OUR CERTIFICATIONS PROVE OUR LIVED ENVIRONMENTAL PROTECTION AND SUSTAINABILITY

\*FSC/PEFC: product certification available upon request.

### FSC®: WE ARE CERTIFIED.

The mark of  
responsible forestry

FSC® (Forest Stewardship Council®) confers its certificates only on those companies using woods for their products that have been felled without exploiting natural, economic, or social resources.

### WE'RE TAKING RESPONSIBILITY.

Weitzer Parkett holds the PEFC Certificate of sustainable forestry. This Europe-wide system of forest certification acts as a common framework for national and regional certification schemes PEFC (Programme for the Endorsement of Forest Certification scheme) is a certification system initiated by European private forest owners and promotes sustainable forestry.

### ENVIRONMENTAL PROTECTION: WE'RE TAKING A STANCE.

As the world's oldest and best-known eco-label, the Blue Angel stands for credibility and competence. It identifies products which are particularly environmentally friendly and at the same time meet high demands in relation to health and employment protection. Weitzer Parkett products have been tested in accordance with these strict guidelines, and as a result are entitled to carry the Blue Angel seal of approval.

### WE STAND FOR REAL VALUES.

www.realwood.eu

Developed by the European Federation of the Parquet Industry ("FEP"), only solid and multi-layered real wood floors such as those manufactured by Weitzer Parkett may carry the Real Wood logo. The campaign for real wood floors has been developed to avoid confusion between real timber floors and laminate floors (laminate cannot carry the "Real Wood" label).

### YOUR TRUST IS IMPORTANT TO US.

The GREENGUARD certificate guarantees no harmful chemical emissions of our 3-layer floors.

### WE LET YOU BREATH EASILY.

The TÜV PROFiCERT product Interior is an independent quality symbol for interior products with regard to emissions. Under this voluntary, external monitoring scheme, the emissions of our products are tested and assessed according to the most stringent criteria. In this way we verify that: Weitzer Parkett ensures a good interior air quality in your rooms.

# GENERAL TERMS AND CONDITIONS OF BUSINESS

## SCOPE

The principles of these General Terms and Conditions of Business (referred to below as 'AGB') are conceived for legal transactions between Contractors as defined in § 1 of the UGB (Austrian Commercial Code). If, by way of exception, they are to be applied to legal transactions with consumers as defined in § 1 of the KSchG (Consumer Protection Act), they shall only apply to the extent that they do not contradict the provisions of this Act. These AGB shall apply unless the Contracting Parties have explicitly agreed otherwise in writing. Conditions of the Buyer to the contrary of or deviating from these AGB are not recognized. These AGB of the Vendor shall also apply if the Vendor renders the delivery to the Buyer without reservation in the knowledge of contradictory conditions of the Buyer or conditions deviating from these Conditions of Delivery. Agreements made verbally or on the telephone by field or office staff shall require written confirmation from management in order to be effective. The subsequent regulations concerning the delivery of goods shall also apply analogously for other services provided by the Vendor. These AGB shall also be valid for future transactions with the Buyer.

## QUOTATION

Quotations of the Vendor are provisional and without obligation. If the buyer does not immediately object to the conditions contained therein upon receipt of the sales confirmation, then a buyer's order becomes legally effective as soon as the seller transmits the sales confirmation via email or fax. Beginning at an order quantity of 100 m<sup>2</sup>, the order from the buyer has to be accomplished in writing via email or fax together with transmission of the construction schedule. The Vendor is entitled to accept an order within 4 weeks by sending an order confirmation.

If the order confirmation of the Vendor contains changes compared to the verbal or written order, these changes shall apply as recognized by the Buyer if it does not object to them within 24 hours.

The buyer must secure the seller's agreement if the former wishes to withdraw from the contract after the sales confirmation has become binding. Moreover, the buyer has to pay a cancellation fee in the amount of €100.00 on a net merchandise value of up to €1,000.00 and a cancellation fee of 10% of the contract value on a greater net merchandise value. The cancellation fee is calculated separately. The seller is not entitled to a cash discount deduction when the cancellation fee is paid. Custom-made products cannot be cancelled in principle.

## PRICING - CONDITIONS OF PAYMENT

Unless specified otherwise in the order confirmation, prices shall apply ex works of the Vendor, duty unpaid, without packaging and without shipping. These are invoiced separately. As of an agreed net value of the goods, the deliveries shall be understood as being free to the address of the Buyer, but excluding any unloading or carrying. Express deliveries by rail and parcel service deliveries shall always be at the expense of the Buyer. Orders with a net order value of less than EUR 150.00 (excl. VAT) shall be furnished with a minor invoices surcharge of EUR 5.00. All prices are referred to at the time of the order confirmation and only apply, unless a separate written agreement is in place, to the quantities contained in the order confirmation. The Vendor reserves the right to increase the prices by a reasonable extent if costs increase after conclusion of the Contract, particularly due to the collective agreements or increases in the prices of materials. In the event that the Contract is concluded without a price being set, the sales price valid on the day of the delivery shall be invoiced. The statutory value added tax is not included in the price. This shall be indicated separately in the invoice at the legal rate on the day of invoicing. The Vendor is also entitled to transmit invoices to the Buyer in electronic form. The Buyer explicitly declares that it agrees to the transmission of invoices in electronic form by the Vendor. Unless specified otherwise in the order confirmation, invoices shall become due for payment without deduction at the time of delivery, but at the time of invoicing from the invoice date at the latest. In the case of special designs, the good is to be paid for in advance, and the Vendor is then only obligated to begin production when the purchase price has been received in full. If non-payment is not made after 8 days have passed since the order confirmation, the Vendor is no longer bound by the order. The Vendor is entitled to demand advance payments or a guarantee of the payment if doubts exist as to the willingness or ability of the Buyer to make the payment. Payments by bill or cheque are not accepted by the Vendor. If a plurality of accounts receivable exists, then the payments of the Buyer shall each be credited to the oldest account receivable. If outstanding debts have been transferred for pursuit externally (by a debt collection agency or lawyer), then any payments received shall firstly be used to cover any possible ancillary costs associated with the pursuit of the debt (default interest, dunning, debt collection and other charges). Remaining amounts shall be credited to the oldest accounts receivable for deliveries and services. The Buyer shall only be entitled to discounts if these have been explicitly agreed in writing. If there are any discountable invoices on the basis of a separate agreement, deductions for discounts shall only be accepted if payment is made within the set period, if the deductions conform to the agreement, and the Vendor has no other outstanding accounts receivable from the Buyer. The Buyer shall not be entitled to withhold payments due to warranty claims or other counter-claims not recognized by the Vendor. If the Buyer defaults on an agreed payment or other performance, the Vendor shall be entitled to insist upon fulfillment of the Contract, and to postpone performance of its own obligations until the outstanding payments have been made or other performance has been made, apply a reasonable extension of the date for delivery, demand payment in full of the outstanding purchase price, as of the due date, demand default interest in the amount of 8% above the primary rate of the Austrian banks, and demand reimbursement of all costs incurred in obtaining performance (payment) from the Buyer, in particular the costs of a debt collection agency or lawyer's fees, or, after granting a reasonable additional period, withdraw from the Contract.

If the Vendor demands payment in full of the outstanding purchase price due to default of payment, and if the Buyer nevertheless fails to make payment of this debt or render other performance, then the Vendor shall be entitled to withdraw from the Contract by giving written notification. In this event, the Buyer shall be obliged, at the Vendor's request, to return to the Vendor any goods that have already been delivered and to reimburse to him the incurred depreciation in value of the goods, and reimburse to him all expenses incurred by the Vendor

in executing the Contract. In addition to this, the Vendor shall charge a handling fee of 10% of the net order value. In the event that no goods have been delivered, the Vendor shall be entitled to provide the finished or partially finished parts to the Buyer and demand payment of the appropriate proportion of the purchase price for doing so.

## RETENTION OF TITLE

The Vendor shall retain title to the object of purchase until the Buyer has completely fulfilled all of his obligations, including any interest, expenses and costs.

In the event that the object of purchase is seized or otherwise attached, the Buyer shall be expected to assert the Vendor's title and to notify the Vendor immediately in writing. The Buyer shall be entitled to resell the object of purchase in the due course of business. In the event that the goods are resold, however, the Buyer shall be obliged to retain title to the purchase goods until payment in full has been made. At this point, the Buyer shall assign to the Vendor the amount receivable from his customer up to the amount of the still outstanding purchase price. The Buyer undertakes, on the one hand, to notify his customers immediately in writing of this assignment upon conclusion of the resale and, on the other hand, to notify the Vendor of the name and address of the customer and of the amount of his account receivable from the customer. The Vendor shall be entitled to avail himself of the assignment at any time and to collect the debt himself. The Buyer undertakes to treat the object of purchase carefully and to insure it sufficiently at replacement value at his own expense against damage caused by fire, water and theft. Executing or transformation of the purchase object by the Buyer shall always be performed for the Vendor. If the purchase object is executed together with other objects that do not belong to the Vendor, the Vendor shall acquire co-ownership of the new object in proportion of the value of the purchase object to the other executed objects at the time of executing. The same shall apply to the object created by executing as applies to the objects of purchase delivered with reservation of title. We explicitly state that executed goods also remain our property until they have been paid for.

## DELIVERY

Unless otherwise agreed, the periods for delivery shall apply ex works, be non-binding, and begin on the latest of the following dates: date of order confirmation; date of fulfilling all of the technical, commercial and financial conditions incumbent on the Buyer; date at which the Vendor receives a down payment to be paid before delivery of the goods or a letter of credit is opened.

If there is no fixed delivery date for a binding order, then the seller has the right to draw on the currently warehoused merchandise for contracts with fixed delivery dates.

Shipping takes place at the risk and the cost of the Buyer. The Vendor reserves the right to choose the nature and route of the shipping, excluding any liability. The Vendor is entitled to make part-deliveries as long as nothing to the contrary is explicitly agreed. The Buyer is obliged to accept part-deliveries and to pay within the framework of the agreed payment conditions. The Buyer must check the delivery immediately upon handover, although within 3 working days at the latest. The Buyer loses the right to invoke a failure of the delivery to comply with the Contract if it neglects to inspect the delivery or if it does not point out the failure to conform in writing, defining the details precisely, immediately after the time at which it could have recognized the failure by means of an ordinary inspection. Externally recognizable transport damage is to be pointed out immediately upon receipt, and the Vendor notified of the nature and extent of this damage immediately in writing. On site, the Buyer is obligated to Notes down the details of the nature and extent of the transport damage on the freight document or delivery Notes.

If shipment is delayed at the buyer's request, then he will be billed for the costs of storage accrued during storage in the amount of €0.90/m<sup>2</sup>/month (with full pallets) or €1.90/m<sup>2</sup>/month (with partial pallets) starting four weeks after notification of readiness to deliver. The storage fee is calculated separately. The seller is not entitled to a cash discount deduction when the storage fee is paid.

After the setting and fruitless expiry of a four-week period, the seller is also entitled to otherwise access the delivery item and to deliver to the buyer with an appropriately extended period. The seller is furthermore also entitled to withdraw from the contract after the setting and fruitless expiry of a reasonable period, especially when

- there is doubt concerning the customer's creditworthiness,
- the customer does not make the prepayment necessary for the contract to be sent,
- the customer has already failed to pay at least two months' worth of the calculated storage costs, or
- Postponement of the shipment exceeds the validity of the respective calendar year's price list.

If the buyer agrees to a price adjustment in terms of the new price list, then the seller has the right to refrain from withdrawing from the contract.

In the event of later amendments to the Contract which could influence the time of delivery, the time of delivery is to be extended reasonably, unless this impacts special agreements relating to this time of delivery. If delivery is delayed due to the occurrence of unforeseen, extraordinary circumstances (interruption of operations, official action, war, blockade, riot, delay in delivery of essential raw and construction material, energy supply difficulties or force majeure, for example), regardless of whether these have occurred at the Vendor or a supplier, the delivery period shall be extended, if delivery or performance does not become impossible, by a reasonable period. If delivery or performance is rendered impossible by the aforementioned circumstances, the Vendor shall be released from the obligation to deliver. These provisions shall also apply in the event of strike or lockout. If, in this event, the delivery period is extended or the Vendor is released from the obligation to deliver, the buyer shall not be entitled to derive any claims for damages herefrom. If the obstruction persists longer than three months, the Buyer shall be entitled, after granting a reasonable additional period, to withdraw from the as yet unfulfilled part of the Contract. If the Vendor is guilty of a delay in delivery, the Buyer shall be entitled to demand performance or, after granting a reasonable additional period for delivery, to declare

# GENERAL TERMS AND CONDITIONS OF BUSINESS

that it is withdrawing from the Contract. If the additional period granted by the Buyer is not observed due to the fault of the Vendor, the Buyer shall be entitled to withdraw from the Contract with regard to all as yet undelivered goods and all delivered goods that cannot be used appropriately alone and without the undelivered goods by giving written notification. In this event, the Buyer shall be entitled to reimbursement of payments made for the undelivered goods or for the unusable goods and, if the delay in delivery is due to gross negligence on the part of the Vendor, to reimbursement of justified expenses which it had to make until the annulment of the Contract and for the execution thereof. The Buyer shall be obliged to return any delivered and unusable goods to the Vendor. Other claims of the Buyer vis-à-vis the Vendor due to the Vendor's delay in delivery, particularly claims for damages due to non-performance, shall be explicitly excluded. If the Buyer fails to accept the goods delivered under the Contract at the place and time agreed in the Contract, the Vendor shall be entitled to demand performance or, after granting a period for acceptance, to withdraw from the contract. In this event, the Vendor shall be entitled to demand the damages incurred by it, including any additional expenses, from the Buyer. In this event, the risk of accidental perishing or accidental deterioration of the purchase goods shall pass to the Buyer at the date at which the Buyer fails to accept delivery. The Vendor shall be entitled to make partial and advance deliveries. We draw attention to the fact that our deliveries take place in compliance with the terms of business of our company exclusively; no regulations to the contrary whatsoever can be accepted. Should you not agree with this procedure, you have the option to cancel your order within 3 days after the purchase order date. After this time limit has expired, the order becomes binding.

## RETURNS

Returns shall only be accepted within eight weeks as of the date of invoice. No returns shall be accepted after this date! Sales promotion products, special products and custom-made products may not generally be returned. Only faultless goods in undamaged original packaging shall be accepted as returns. Up to a net invoice value of goods of EUR 500.00, a EUR 50.00 handling charge shall be invoiced; beyond this, the handling charge shall be 10%. The sender shall always bear the shipping costs of return delivery.

## WARRANTY AND LIABILITY

In accordance with the following provisions, the Vendor shall give warranty for any faults impairing merchantability that are due to a fault in design, material or workmanship. Deviations in measurement and quality are admissible within the framework of the norms agreed or those in place in the country of the Vendor. No warranty is given for production- or materials-related deviations in colour nuances or grading of the good. This also applies to models of the good which are described as lower quality, such as "Secunda", for example, when warranty is also excluded. The warranty obligation shall only exist for such faults that occur during a period of twenty-four months (warranty period) as of the date of passing of risk or, in the case of delivery with installation, as of the completion of assembly. The Buyer undertakes to notify any apparent faults detected at acceptance immediately in writing, describing the nature and extent of these faults in detail, and to have such faults confirmed by the deliverer. The invoice for the reclaimed delivery is to be presented to the Vendor. The following periods for complaints shall apply in the event of undamaged packaging but damaged contents: postal and parcel services, twenty-four hours as of acceptance; shipping companies and rail, seven days as of acceptance. In these cases, too, faults must be notified in writing, giving details of the nature and extent of the faults, and the invoice for the reclaimed delivery is to be presented. If the above periods for notification are not observed, the shipping company shall not be liable for damages. In the event of a complaint, the Buyer shall also be obliged to first accept the goods and to unload and store the goods with due care and at his own risk and cost. If the faults are to be remedied by the Vendor, the Vendor shall be obliged, at his option, to either remedy the faulty goods on site, have the faulty goods or the faulty parts returned for rectification, or replace the faulty parts. Rectification of faults shall not extend the warranty period. If the Vendor has the faulty goods or parts returned for rectification or replacement, the Buyer shall assume the costs and risk of shipment, unless otherwise agreed in writing. Return of the rectified or replaced goods or parts to the Buyer shall be at the Vendor's cost and risk, unless otherwise agreed. The faulty goods or parts replaced in accordance with this section shall be available to the Vendor. The Vendor shall only assume the costs of rectification of faults performed by the Buyer himself if he has given his consent hereto in writing. The Vendor shall only give warranty for such faults that occur under the agreed operating conditions and in the normal course of use. It shall not give warranty for any faults that occur due to incorrect set-up by the Buyer or its authorized representative, incorrect maintenance, incorrect repairs or repairs performed without the Vendor's written consent, or changes made by third parties, or due to normal wear and tear. The Vendor shall only give warranty for parts of the goods that he has purchased from third parties to the extent of the warranty claims due to him vis-à-vis the sub-contractor. If the Vendor manufactures goods on the basis of the Buyer's construction specifications, drawings or models, the Vendor's liability shall not include the correctness of the design, but rather the fact that execution of the goods was performed to the Buyer's specifications. In such cases, the Buyer undertakes to indemnify the Vendor against any violation of industrial property rights. The Vendor shall not give warranty for the acceptance of repair jobs in the event of modifications or conversions of all goods, including third-party goods, or in the event of delivery of used goods. Unless otherwise deriving from these provisions, all further claims by the Buyer, on whatever legal grounds, shall be excluded. The Vendor shall hence not be liable for any damage that is not incurred on the delivered goods themselves, also, particularly, not for loss of profit or other pecuniary loss of the Buyer. In any case, all warranty claims shall be limited to the purchase price to be paid by the Buyer. As of commencement of warranty, the Vendor shall assume no liability exceeding the liability specified in this section. He shall also not be liable for any faults originating before the date of the passing of risk. The object of purchase shall only offer the safety that may be expected on the basis of approval regulations, operating instructions, Vendor instructions concerning handling of the object of purchase, particularly with regard to any prescribed inspections and other instructions provided.

## OTHER CLAIMS FOR DAMAGES

Unless otherwise deriving from the aforesaid, all claims for damages vis-à-vis the Vendor shall be excluded without regard for the legal nature of the claim asserted. This exclusion shall hence apply in particular to all claims for damages for injuries to persons, damage to property that is not the object of the Contract, other damage or loss of profit, unless the circumstances of the individual case prove gross negligence on the part of the Vendor. Liability for damages resulting from the Product Liability Act and product liability claims that may be derived from other provisions shall be explicitly excluded.

## INTELLECTUAL PROPERTY

Plans, drawings and other documents of a similar nature, as well as brochures, catalogues, patterns and the same remain the intellectual property of the Vendor. Any utilization or duplication shall require the explicit written consent of the Vendor. In the event of their utilization without consent, the Vendor is entitled to assert a compensation fee equal to 25 % of the estimated sum.

## PLACE OF JURISDICTION, APPLICABLE LAW, PLACE OF PERFORMANCE

The venue for all disputes arising out of or in connection with this Contract is Graz. The place of delivery and payment shall be the Vendor's registered office, also if delivery takes place, as agreed, at a different place. The contractual relationship is subject to Austrian law, with the exception of the UNCITRAL uniform law on sale of goods [Convention on Contracts for the International Sale of Goods of 11.04.1980], whose validity is explicitly excluded.

## DATA PROTECTION

The Buyer hereby gives its consent to its data being stored and executed by the Vendor in electronic form. Furthermore, the Buyer declares that it consents to an enquiry being made to the Trade Credit Database ("Warenkreditvidenz der Creditreform") or another appropriate information office. The Buyer also consents, in the event of a delay in its payment, to all its data at the Warenkreditvidenz being transmitted and made available to third parties by the Warenkreditvidenz.

## GENERAL

If a provision of these AGB is declared void or legally ineffective, the remaining provisions shall remain unaffected by this, and are to be interpreted as if the Contract had been concluded without the invalid provision.

The same applies to loopholes in the Contract. Any controversies relating to fulfillment of this Contract do not entitle the Buyer to suspend or delay due payments. The Buyer may only assign its rights arising out of the Contract after gaining the written consent of the Vendor.

## CORRECT AS AT: January 2020

All previous AGB hereby cease to be valid.
